## **Note 1. Significant accounting policies**

These general purpose financial statements for the interim half-year reporting period ended 30 September 2018 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2018 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

### **New or amended Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

### **Going concern**

The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business. The consolidated entity has incurred net losses after tax of \$391,954 (2017: \$436,460) and net cash outflows from operating and investing activities of \$1,604,379 (2017: \$3,491,959) for the three ended 30 September 2018.

The consolidated entity has not generated significant revenues from operations and the directors have prepared cash flow forecasts which indicate that the current cash resources will not be sufficient to fund planned exploration expenditure, other principal activities and working capital requirements without the raising of additional capital.

The company will be required to raise additional capital to fund its minimum committed exploration expenditures, and other principal activities and working capital requirements through to 30 September 2019. The company continues to review various other capital raising opportunities.

Based on the consolidated entity's cash-flow forecasts and achieving the funding referred, the directors are confident that the company and the consolidated entity will be able to continue as going concerns. In particular, the directors are confident in the company's ability to raise the capital mentioned above as they have a successful track record as demonstrated in the financial year 2018 (\$9.5 million), 2017 (\$14.9 million), 2016 (\$9.5 million) and 2015 (\$3.8 million). The directors are also confident they are able to manage discretionary spending to ensure that cash are available to meet debts as and when they fall due.

Should the company be unable to raise the funding referred to above, there is a material uncertainty whether the company and the consolidated entity will be able to continue as going concerns and therefore, whether they will be able to realise their assets and discharge their liabilities in the normal course of business.

The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts, or to the amounts and classification of liabilities that might be necessary should the company and the consolidated entity not continue as going concerns.

**Note 2. Operating segments**

*Identification of reportable operating segments*

The consolidated entity is organised into one operating segment being mining and exploration in Brazil. This operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM comprises mainly direct exploration expenditure in assessing performance and allocation of resources and as such no segment results or segment revenues are disclosed. All the consolidated entity's non-current assets (including exploration assets) are held in Brazil.

The information reported to the CODM is on a monthly basis.

The above derivative financial liabilities relates to warrants that are exercisable in Canadian dollars and as these are exercisable in a currency other than the functional currency (AUD), these are deemed to be derivative financial liability. At 30 September 2018, the fair value of these warrants were calculated using the Black-Scholes valuation method, and using the closing share price of Agua at A\$0.155, the calculated fair value of the warrants ranges between A\$0.009 and A\$0.018 using the following assumptions: expect dividend yield of 0%, expected volatility of 75%, risk-free interest rate of 2.17% and an expected life of 1.75 and 2.53 years. A difference in the fair value of \$347,707 between 30 June 2018 and the balance date has been recognised in the profit or loss as a gain.

	<u>(4,210,199)</u>	<u>(3,838,650)</u>

*Foreign currency reserve*

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

*Share-based payments reserve*

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

*Capital contribution reserve*

This reserve records the capital contribution arising from unrecognised interest due to non-arm's length interest rate at 1% of the \$1 million loan with Forbes Empreendimentos Ltda, a company associated with three of its current/former directors.

*Movements in reserves*

Movements in each class of reserve during the current financial period are set out below:

**Note 10. Equity - dividends**

There were no dividends paid, recommended or declared during the current or previous financial period.

## **Note 11. Financial instruments**

### ***Financial risk management objectives***

The group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. Given the nature and size of the business and uncertainty as to the timing and amount of cash inflows and outflows, the group does not enter into derivative transactions to mitigate the financial risks. In addition, the group's policy is that no trading in financial instruments shall be undertaken for the purposes of making speculative gains. As the group's operations change, the directors will review this policy periodically going forward.

The group uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk and beta analysis in respect of investment portfolios to determine market risk.

### ***Market risk***

#### ***Foreign currency risk***

The group undertakes certain transactions denominated in foreign currency that are exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

The entity does not carry in its books any foreign currency other than its functional currency and therefore the risk associated with foreign currency risk is deemed to be minimal.

#### ***Price risk***

The consolidated entity is not exposed to any significant price risk.

#### ***Interest rate risk***

The group's main interest rate risk arises from short-term deposits with a floating interest rate. As at the reporting date, the group did not have any significant funds on deposits, hence was not exposed to interest rate risk.

### ***Credit risk***

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the group. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The group does not hold any collateral.

There are no significant concentrations of credit risk within the group.

### ***Liquidity risk***

Liquidity risk is the risk that the group will not be able to meet its financial obligations as they fall due. The Board's approach to managing liquidity is to ensure, as far as possible, that the group will always have sufficient liquidity to meet its liabilities when due. Vigilant liquidity risk management requires the group to maintain sufficient liquid assets (mainly cash and cash equivalents) to be able to pay debts as and when they become due and payable.

The group manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

**Note 11. Financial instruments (continued)**

*Remaining contractual maturities*

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid.

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

**Note 12. Fair value measurement**

*Fair value hierarchy*

The following tables detail the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

**Directors' declaration**  
**30 September 2018**

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 September 2018 and of its performance for the financial period ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.
