

30 April 2019

MARCH 2019 QUARTERLY ACTIVITIES REPORT

Aguia Resources Limited (ASX: **AGR**) (TSXV: AGRL) (“Aguia” or “Company”) is pleased to report on its activities for the March 2019 Quarter:

- **Public consultation for the Três Estradas Phosphate Project held in Lavras do Sul on the evening of March 20th attended by +1,500 people with another 2,000 watching a livestream of the event online**
- **Option agreement signed to acquire the Primavera Project claims, including the Andrade copper occurrence from Referencial Geologia, forming the cornerstone to Aguia’s Rio Grande copper strategy**
- **Drilling undertaken by Aguia as part of due diligence uncovered high grade and thick copper intersections**
- **Total Inferred Mineral Resource estimate is 10.8 million tonnes with an average grade of 0.56% copper and 2.56 grams/tonne silver**
- **Mineral Resource Statement includes:**
 - **An open pit-constrained Inferred Resource of 1.3 million tonnes of oxidized material, from surface, grading 0.43% copper**
 - **8.8 million tonnes of sulphide-bearing material grading 0.51% copper**
 - **675 thousand tonnes of sulfide-bearing material, amenable for underground mining, grading 1.42% copper**
- **First pass scout drilling at Big Ranch defines a large system of sulphide mineralisation**

During the March 2019 Quarter (the “Quarter”), Aguia continued to focus on advancing its Três Estradas phosphate asset located in the state of Rio Grande do Sul in Southern Brazil (see Figure 1). The key activity at Três Estradas this Quarter was the community consultation event which took place in Lavras do Sul, Brazil Aguia has also been engaged in ongoing exploration of Canhada and Big Ranch, a new zone of copper mineralization discovered earlier in 2018 (see Figure 2).

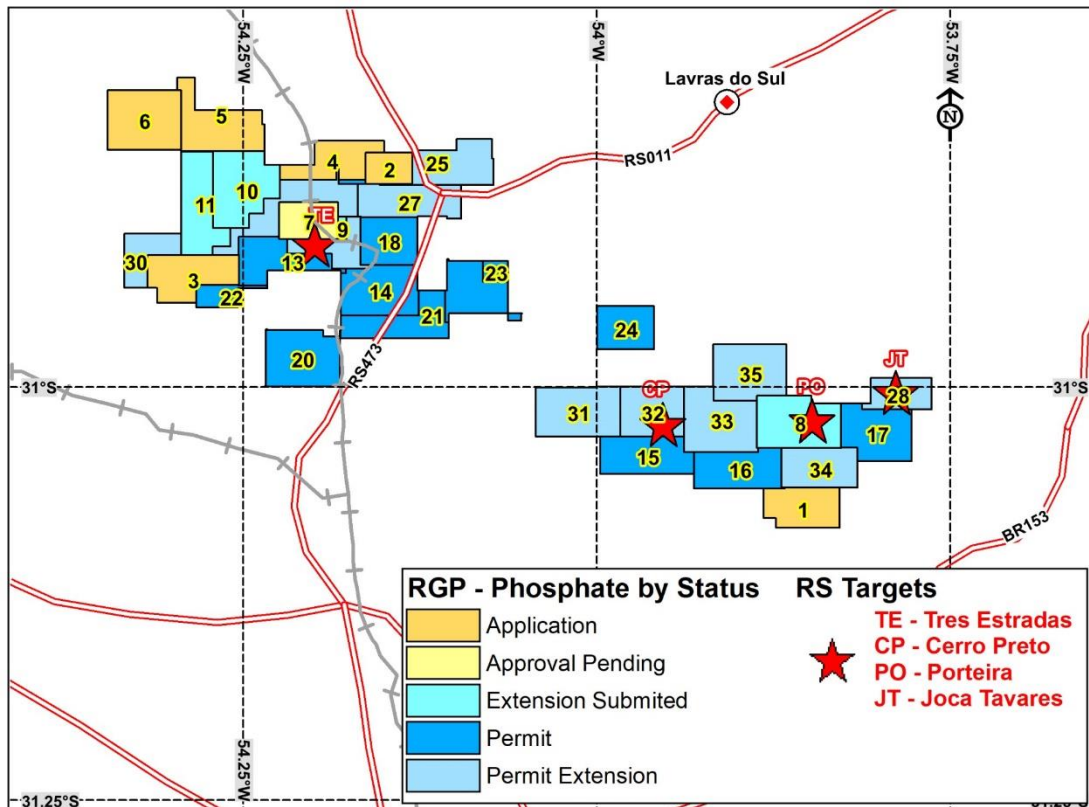

Figure 1: Rio Grande Três Estradas Tenement Map – Refer to Tenement Register for License Details

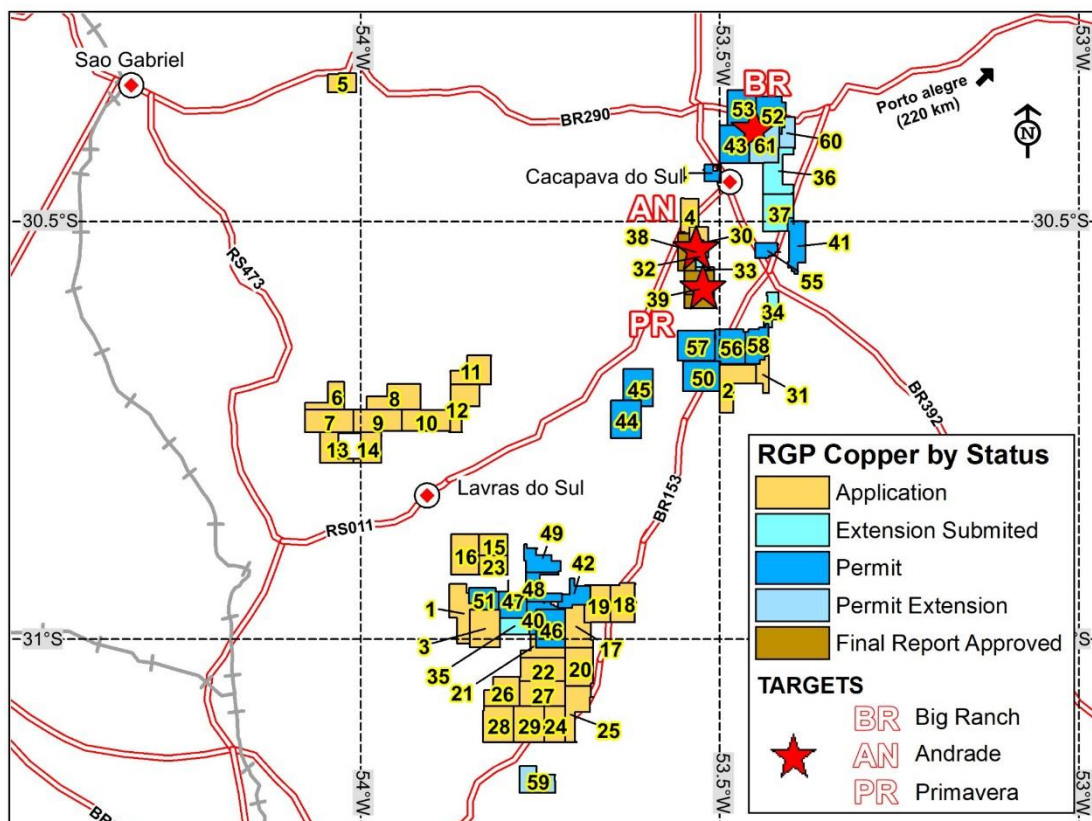

Figure 2: Rio Grande Copper Tenement Map – Refer to Tenement Register for License Details

Três Estradas Activity Focused on EIA Approval Process

Agua's Environmental Impact Assessment (EIA) was filed with the State Environmental Agency (FEPAM) in October 2016. Subsequently, engineering optimisations identified from trade-off studies resulted in modifications and improvements to the project and a revised version of the EIA was filed in September 2017.

A public consultation hearing to consider the impact of Três Estradas took place in Lavras do Sul on March 20, 2019. Community consultation is the key final deliverable in the environmental permitting process for mining projects in Brazil. It is estimated approximately 1,500 people were in attendance and the overall response throughout the evening was extremely positive. The Company also streamed the audience live on Facebook, which was accessed by 2,000 viewers during the event.

FEPAM issued some follow up questions and clarifications subsequent to the event and Aguaia has provided responses and expects a final approval imminently. Approval of the LP will be a major milestone for the Company. The next phase of development will be obtaining the Installation Permit or "LI". The LI requires implementation of the programs and requirements prescribed in the LP to ensure Três Estradas has a minimal impact on the environment and social wellbeing of the community. During this time, Aguaia will be finalizing the design and plans for the project site, negotiating offtake contracts and sourcing debt for construction. The LI is expected to take up to 12 months to obtain after which construction can commence.

Rio Grande Copper Exploration Continues

In 2018, Aguaia announced the identification a new zone of copper mineralisation on ground staked within the Rio Grande Copper Belt, as a result of regional exploration activities in the State of Rio Grande do Sul, Brazil. The Company successfully secured a strategic land package along the Rio Grande Copper Belt, totaling 34,000 hectares across 23 tenements and identified two mineralised targets within the belt: Canhada and Big Ranch (see Figure 3 below).

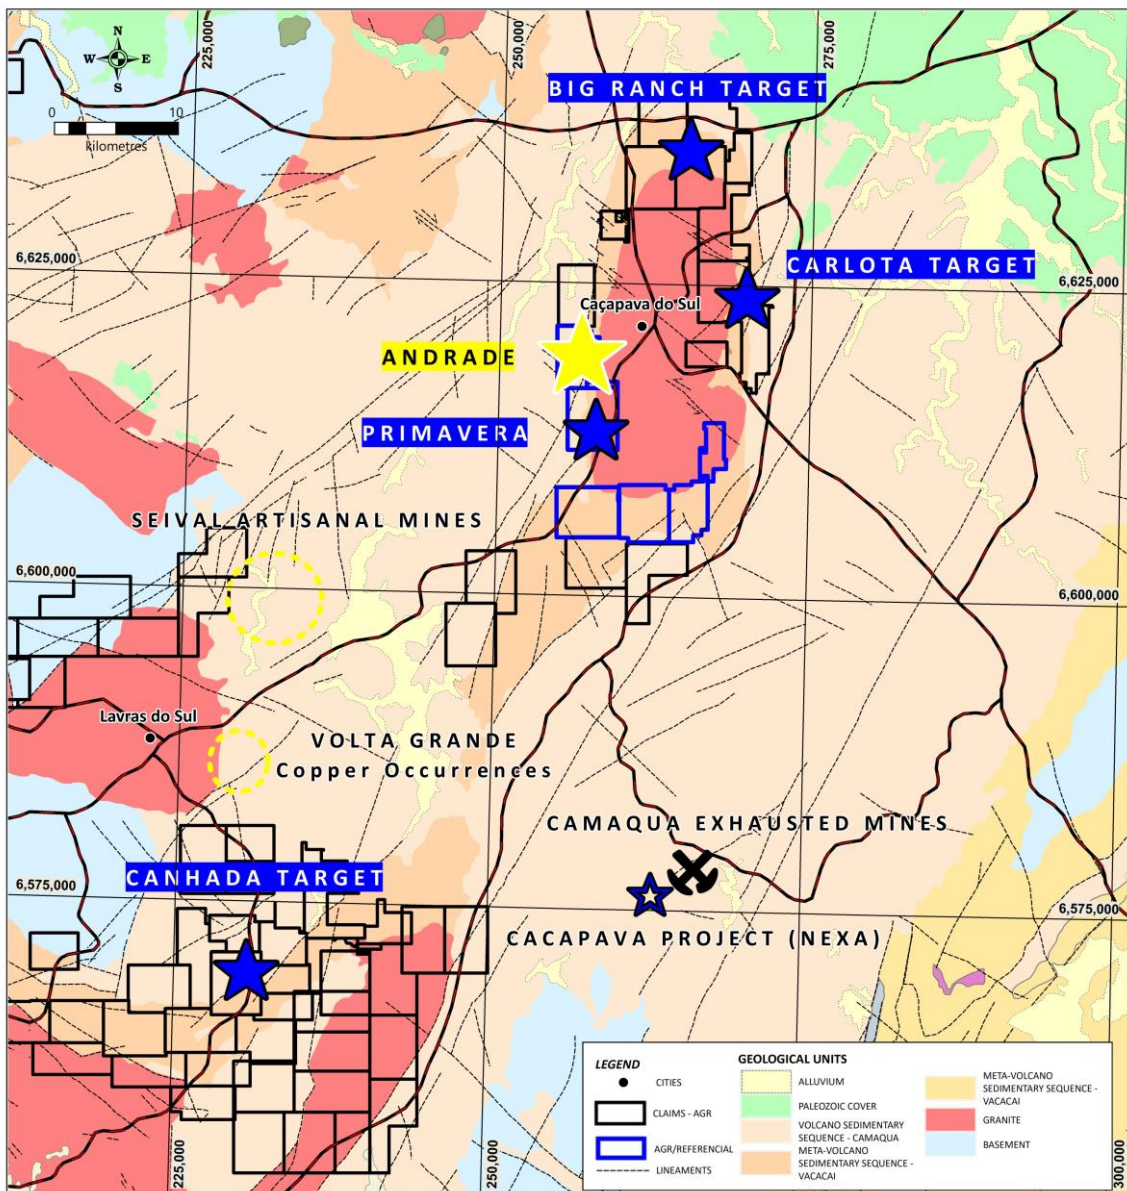

Figure 3. Geological map of the Rio Grande Copper Belt showing Agüia's existing claims at Big Ranch and Canhada in relation to the new claims being acquired from Referencial which are outlined in blue.

During the Quarter, Agüia announced that having completed a 60-day due diligence period, it had executed an Option Agreement to acquire the Primavera Project which includes the Andrade copper occurrence ("Andrade") from Referencial Geologia Ltda. ("Referencial"). The Option Agreement includes eight claims covering 9,282 hectares.

As part of the technical review Agüia undertook 382 metres of drilling at Andrade and assay results returned thick and high-grade zones of mineralisation. Hole AND-19-003 intersected a zone with 28.77 metres grading 1.83% Cu and 3.84 gpt Ag and includes a higher-grade zone of 19.39 metres grading 2.55% Cu and 4.54 gpt Ag, with individual samples of up to 7.53% Cu within this intercept. See ASX release dated February 28, 2019 for results of the drilling conducted at Andrade.

Later in the Quarter, Agüia reported on the maiden resource for the recently acquired Andrade copper deposit. The entire dataset was subject to independent review and audit by Toronto based firm Roscoe Postle Associates Inc. (RPA) which has signed off on the new resource statement for the project (the "Mineral Resource Statement"). The resource estimate meets the criteria required to be compliant with both JORC and CIM standards.

The Mineral Resource Statement includes an open pit-constrained Inferred Resource of 1.3 million tonnes of oxidized material, from surface, grading 0.43% copper and 8.8 million tonnes of sulphide-bearing material grading 0.51% copper, and an additional 675 thousand tonnes of sulfide-bearing material, amenable for underground mining, grading 1.42% copper. The total Inferred Mineral Resource is 10.8 million tonnes with an average grade of 0.56% copper and 2.56 grams per tonne of silver. See details of the CIM / JORC-compliant mineral resource statement in the table below and the Material Information Summary and JORC Table 1 lodged with ASX on March 19, 2019.

TABLE 1 – AGÜIA RESOURCES – ANDRADE DEPOSIT- MARCH 13, 2019

		Tonnes (kt)	Cu Grade (%)	Ag Grade (g/t)	Cu (kLb)	Ag (kOz)
Oxide	Open Pit	1,337	0.43	2.54	12,778	109
Sulphide	Open Pit	8,796	0.51	2.15	98,525	607
	Underground	675	1.42	8.06	21,185	175
TOTAL INFERRED MINERAL RESOURCES		10,807	0.56	2.56	132,488	891

1. Mineral Resources conform to the standards set out by CIM (2014) and JORC Code (2012)
2. Open pit resources are stated within a Whittle pit shell, above a cut-off grade of 0.2% Cu
3. Underground resources are reported above a cut-off grade of 1% Cu
4. Cut-off grades were calculated using a copper price of US\$3.50/lb and a silver price of US\$20/oz
5. Average bulk densities of 2.68 t/m³ for high grade domains and 2.6 t/m³ for low grade and waste domains were applied
6. Resources are reported on a 100% basis. No mining loss or mining dilution factors have been applied to the reported figures.
7. Mineral Resources are not Ore Reserves and should not be considered as such. They do not have demonstrated economic viability
8. Totals may not sum due to rounding

During the Quarter, Agüia also reported on results from its recent 2,224 metre diamond drilling program at the Big Ranch copper prospect. This first pass of exploration drilling, which focused on the broadly spaced surface base metal showings, structural controls and associated geophysical anomalies, has successfully identified a 6 km by 2 km zone of mineralisation including zinc, copper and precious metals.

The data gathered in this drill program will be used to vector towards zones that exhibit high discovery potential for future drilling.

Assay results have been received for 11 holes with mineralisation encountered in 7 holes. The assays from the drilling program confirm Aguia has identified a major hydrothermal system and provides greater understanding of the distribution and nature of the various geophysical and geochemical anomalies mapped at surface and also at depth. See ASX release dated March 7, 2019 for assay results.

Lucena Phosphate Project

The Lucena Phosphate Project, comprised of 45 tenements and applications for 268.1km², contains an initial JORC compliant Inferred Mineral Resource of 55Mt grading 6.42% P₂O₅ in the state of Paraiba in north eastern Brazil. A feature of the Lucena tenement is outcropping limestone, which is a potential commercialisation opportunity given the presence of a number of cement plants in the region. There was no activity during the Quarter.

Mata da Corda Phosphate Project

There was no activity during the Quarter.

Corporate Activity

At the end of the Quarter, Aguia announced that it had closed a private placement financing for gross proceeds of A\$874,708.44. These funds were raised in connection with the issuance of 7,289,237 Ordinary Shares via a non-brokered private placement to sophisticated and institutional investors at a price of A\$0.12 per Ordinary Share.

The Company intends to use the proceeds from the Placement as follows:

- Ongoing exploration of the Rio Grande Copper prospects;
- Finalization of environmental permitting for the Três Estradas phosphate deposit;
- Previously announced payments for acquisition of copper and phosphate properties;
- Strengthening the balance sheet; and
- Lease maintenance and general working capital purposes.

Aguia's Brazilian operation is in the process of relocating from Belo Horizonte in Minas Gerais State to Porto Alegre in Rio Grande do Sul to be close to the project site. The relocation will better position the technical team to complete the final detailed engineering over the next year and prepare for the construction phase. A streamlined operation and lower cost operating environment are expected to result in cost savings for the coming year.

Plans for the June Quarter

The key activity during the June Quarter will be the finalization of the environmental permit for Três Estradas. Aguia's team in Lavras do Sul remains fully engaged with the local government and community.

Exploration of the copper mineralisation in the Rio Grande Copper belt will continue in the June Quarter with Andrade the priority target in the near term. Management and the Board of Directors will continue to explore options to ensure the potential value of the copper asset is fully realized by Aguia shareholders and will present a proposal for shareholder consideration in due course.

About Aguia:

Aguia Resources Limited, ("Aguia") is an ASX and TSXV listed company whose primary focus is on the exploration and development of mineral resource projects in Brazil. Aguia has an established and highly experienced in-country team based in Belo Horizonte, Brazil with corporate offices in Sydney, Australia. Aguia's key projects are located in Rio Grande do Sul, a prime farming area which is 100% dependent on phosphate imports. The Rio Grande phosphate deposits exhibit high quality and low cost production characteristics, and are ideally located with proximity to road, rail, and port infrastructure. Aguia's experienced management team has a proven track record of advancing high quality mining assets to production in Brazil.

Qualified Person

The technical information in this press release has been reviewed and approved by Dr. Fernando Tallarico, who is a member of the Association of Professional Geoscientists of Ontario, Technical Director for Aguia and a Qualified Person as defined by National Instrument 43-101. Dr. Tallarico consents to the inclusion of his name in this release. Dr. Tallarico verified the data disclosed in this press release in accordance with industry standard best practices, including sampling, analytical, and test data underlying the information or opinions contained herein.

JORC Code Competent Person Statements:

The information in this report that relates to Exploration Targets, Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Dr Fernando Tallarico, who is a member of the Association of Professional Geoscientists of Ontario. Dr Tallarico is a full-time employee of the company. Dr Tallarico has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Dr Tallarico consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Caution regarding forward-looking information:

This press release contains "forward looking information" within the meaning of applicable Canadian securities legislation. Forward looking information includes, without limitation, statements regarding the next steps for the project, timetable for development, production forecast, mineral resource estimate, exploration program, permit approvals, timetable and budget, property prospectivity, and the future financial or operating performance of the Company. Generally, forward looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including, but not limited to: general business, economic, competitive, geopolitical and social uncertainties; the actual results of current exploration activities; other risks of the mining industry and the risks described in the Company's public disclosure. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

JORC Code Competent Person Statements

The Três Estradas Phosphate Project has a current NI 43-101/JORC compliant measured and indicated mineral resource comprising 83.210 million tonnes grading 4.11% P₂O₅ and 21.845 million tonnes of inferred resource grading 3.67% P₂O₅.

The Lucena Phosphate Project has a current JORC compliant inferred mineral resource of 55.1Mt grading 6.42% P₂O₅.

The Andrade Project has a current NI 43-101/JORC compliant Inferred Mineral Resource of 10.8 million tonnes with an average grade of 0.56% copper and 2.56 grams per tonne of silver.

Information in this report is extracted from the following reports, which are available for viewing on the Company's website:

- *March 31, 2019: Aguia Private Placement Oversubscribed and Priced at a Premium*
- *March 21, 2019: Successful Community Consultation Event for Aguia's Três Estradas Phosphate Project*
- *March 18, 2019: Aguia Reports Maiden Resource for Andrade Copper Deposit*
- *March 6, 2019: Initial Scout Drilling at Big Ranch Identifies Pervasive System of Sulphide Mineralisation*
- *February 27, 2019: Aguia Acquires Andrade Copper Project & Drills 1.83% Cu Over 28.8m Including 2.55% Cu Over 19.4m and 5.4% Cu Over 2.25m*
- *January 14, 2019: Aguia Enters Final Phase of Três Estradas Environmental Permitting*

The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements listed above and, in the case of estimates of Mineral Resources or Ore Reserves that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Dr Fernando Tallarico, who is a member of the Association of Professional Geoscientists of Ontario. Dr Tallarico is a full-time employee of Aguia Resources Limited. Dr Tallarico has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves ("JORC Code"). Dr Tallarico consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

(a) property, plant and equipment		
(b) tenements (see item 10)		
(c) investments		
(d) other non-current assets		

Consolidated statement of cash flows	Current quarter \$A'000	Year to date (9 months) \$A'000
2.2 Proceeds from the disposal of:		
(a) property, plant and equipment		
(b) tenements (see item 10)		
(c) investments		
(d) other non-current assets		
2.3 Cash flows from loans to other entities		
2.4 Dividends received (see note 3)		
2.5 Other (provide details if material)		
2.6 Net cash from / (used in) investing activities		

3. Cash flows from financing activities		
3.1 Proceeds from issues of shares	568	3,583
3.2 Proceeds from issue of convertible notes		
3.3 Proceeds from exercise of share options		
3.4 Transaction costs related to issues of shares, convertible notes or options	(31)	(74)
3.5 Proceeds from borrowings		
3.6 Repayment of borrowings		
3.7 Transaction costs related to loans and borrowings		
3.8 Dividends paid		
3.9 Other (provide details if material)		
3.10 Net cash from / (used in) financing activities	537	3,509

4. Net increase / (decrease) in cash and cash equivalents for the period		
4.1 Cash and cash equivalents at beginning of period	2,502	3,405
4.2 Net cash from / (used in) operating activities (item 1.9 above)	(2,265)	(6,151)
4.3 Net cash from / (used in) investing activities (item 2.6 above)		
4.4 Net cash from / (used in) financing activities (item 3.10 above)	537	3,509
4.5 Effect of movement in exchange rates on cash held	(7)	4
4.6 Cash and cash equivalents at end of period	767	767

5. Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1 Bank balances	767	2,502
5.2 Call deposits	-	-
5.3 Bank overdrafts	-	-
5.4 Other (provide details)	-	-
5.5 Cash and cash equivalents at end of quarter (should equal item 4.6 above)	767	2,502

6. Payments to directors of the entity and their associates	Current quarter \$A'000
6.1 Aggregate amount of payments to these parties included in item 1.2	163
6.2 Aggregate amount of cash flow from loans to these parties included in item 2.3	-
6.3 Include below any explanation necessary to understand the transactions included in items 6.1 and 6.2	

Remuneration and fees paid to Directors and their associates.

7. Payments to related entities of the entity and their associates	Current quarter \$A'000
7.1 Aggregate amount of payments to these parties included in item 1.2	-
7.2 Aggregate amount of cash flow from loans to these parties included in item 2.3	-
7.3 Include below any explanation necessary to understand the transactions included in items 7.1 and 7.2	

Mining exploration entity and oil and gas exploration entity quarterly report

8. Financing facilities available <i>Add notes as necessary for an understanding of the position</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
8.1 Loan facilities	-	-
8.2 Credit standby arrangements	-	-
8.3 Other (please specify)	-	-
8.4 Include below a description of each facility above, including the lender, interest rate and whether it is secured or unsecured. If any additional facilities have been entered into or are proposed to be entered into after quarter end, include details of those facilities as well.		

--

9. Estimated cash outflows for next quarter	\$A'000
9.1 Exploration and evaluation	210
9.2 Development	
9.3 Production	
9.4 Staff costs	300
9.5 Administration and corporate costs	250
9.6 Other (provide details if material)	
9.7 Total estimated cash outflows	760

* depending on funds availability, the entity can control its spending on exploration and evaluation activities as these activities are non-contractual and discretionary in nature.

10. Changes in tenements (items 2.1(b) and 2.2(b) above)	Tenement reference and location	Nature of interest	Interest at beginning of quarter	Interest at end of quarter
10.1 Interests in mining tenements and petroleum tenements lapsed, relinquished or reduced				
10.2 Interests in mining tenements and petroleum tenements acquired or increased				

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Company secretaryDate: **30 APRIL 2019**Print name: **ANDREW BURSILL****Notes**

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
